Professional Summary

Java Full Stack Developer with hands-on experience in developing RESTful APIs using Spring Boot and building responsive web applications using React.js. Proficient in Java, SQL, PostgreSQL, OOPs, Collections Framework, and database-driven application development. Passionate about problem-solving, software development, and continuous learning. Seeking an entry-level Software Developer role to contribute technical and analytical skills.

Education

Gurugram University <i>Bachelor of Computer Applications (BCA)</i>	2023 – Present
Haryana Board <i>Senior Secondary</i>	2022 – 2023

Technical Skills

Languages: Java, JavaScript, SQL

Backend Technologies: Spring Boot, Spring MVC, Spring Data JPA, JDBC, Servlets, REST APIs, Hibernate

Frontend Technologies: HTML, CSS, JavaScript, React.js

Database: PostgreSQL

Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code

Documentatio: Swagger

Core Concepts: OOPs, Collections Framework, Exception Handling, Multithreading, Layered Architecture

Training

Java Full Stack Development <i>QSpiders</i>	Ongoing
---	---------

- Learning Java, Spring Boot, REST APIs, React.js, PostgreSQL, and modern full-stack development practices.

Relevant Coursework

- Database Management Systems (DBMS)
- Object-Oriented Programming (OOP)

Academic Projects

FitNova – AI Fitness Tracker

Technologies: Java, Spring Boot, Spring Data JPA, PostgreSQL, REST APIs

- Developed 10+ REST APIs for user management, workout tracking, and fitness monitoring.
- Implemented Controller-Service-Repository architecture following industry-standard practices.
- Integrated AI-based fitness recommendations to enhance user engagement and personalized experiences.
- Designed and managed PostgreSQL database schemas using JPA and Hibernate.
- Tested API endpoints using Postman and ensured efficient data handling.

ReactCart – Modern E-Commerce Platform

Technologies: React.js, JavaScript, HTML, CSS

- Developed a responsive e-commerce application using React.js.
- Created reusable React components to improve maintainability and scalability.
- Implemented shopping cart functionality and dynamic product rendering.
- Utilized React Hooks for efficient state management and enhanced user interaction.
- Designed mobile-friendly interfaces following responsive web design principles.

Certifications

- Java Full Stack Development – QSpiders (Ongoing)

Achievements

- NSS Volunteer (2023–2025)
- Participated in DronaCode Hackathon and collaborated on software development projects.
- Won Second Prize in Science Exhibition for innovative project presentation.

Additional Activities

- Numismatics (Coin Collection and Study of Historical Currency)
